Sir:

**RESPONSE**

Responsive to the Official Action dated October 12, 2006, the applicants elect, with traverse, the subject matter of the Examiner's Group I for further prosecution in the above.

Reconsideration and withdrawal of the restriction requirement are requested as, at a minimum, search and examination of all of the claimed subject matter is not believed, with due respect, to place an undue burden on the Examiner. The subject matter of the Examiner's Groups I and II, for example, are defined by the Examiner in the same Class, and only a single separate subclass each. The applicants believe, again with due respect, that the search of two subclasses within the same class would not place an undue burden on the Examiner.

Rejoinder and allowance of any claim defining a method of making and/or using a product defined by an allowable claim, at an appropriate time, are requested.

An early and favorable Action on the merits of all of the claimed subject matter is requested.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
